

AN ENVIRONMENTALLY SUSTAINABLE PROGRAM FOR THE ONGOING MANAGEMENT AND DISPOSAL OF WORKSTATIONS AND OFFICE FURNITURE.

Environmental Asset Management.

We manage procurement, storage, distribution, refurbishing and recycling of second-hand furniture in partnership with our corporate clients.

Egans Wise Office Furniture Program provides the complete solution to your redundant fit-out or assets. The program aims to reduce the impact on both the environmental and your financial costs.

Wise Office Furniture.

We supply, install and maintain top quality commercial grade workstations and furniture. Furniture can be re-upholstered and reconfigured to your specification using our Wise Choice program.

Managed storage

Managed storage maximises asset usage, and minimises storage costs. Our online virtual storeroom enables customers to view stored assets and order their retrieval, redistribution or disposal.

Sustainable fit-outs that don't cost the earth.

An environmentally and economically sustainable service offering workstations and office furniture of the highest quality. Our Wise Office Furniture Program stock is meticulously graded in order to determine the condition and value of each product. View our extensive range of first-class furniture on our website or in one of our showrooms.

Wise Office Furniture range includes:

- Workstations
- Seating
- Tables
- Designer furniture
- Storage
- Accessories

Wise Choice. Make it your own.

Modify our range of furniture in order to meet your individual design needs, and enjoy the benefit of environmentally and economically sustainable design furniture without compromise.

How it works

All Wise Choice furniture products are easily identifiable by the Wise Choice logo. The product description provides detailed data on technical specifications, certifications and the origins of the product.

Wise Choice range includes:

- Workstations
- Meeting tables
- Office and executive chairs
- Classic designer chairs and sofas

We constantly develop new options to meet your design requirements and are happy to discuss your design ideas and project specifications. Please get in touch with our team of experts.
